

BN 23

SILICONE TAPE

Single sided polyester tape with silicone adhesive for masking applications in powder coating process and in glass industry. Easy removal and dielectric thermal resistance 130°C (Class B).

MAIN APPLICATIONS AND ADVICES FOR THE CORRECT TAPE USE

- Used for masking application in powder spray coating processes
- For edge sealing in tempered glass production
- Suitable for masking in galvanic process

TECHNICAL DATA

BACKING	Polyester
COLOR	Green or clear
ADHESIVE	Silicone
TOTAL THICKNESS	60 µm (AFERA 4006-ED.9/79)
ADHESION TO STEEL	300 cN/cm (AFERA 4001-ED.10/87)

WARRANTY

The tape can be stored for maximum 12 months from the date of production in dry conditions and in its original packaging. The material should be protected from extreme temperatures and direct sunlight. Once removed from its original packaging, the tape should be protected from dust and other impurities. Keep the rolls in horizontal position.

The technical information and data, recommendations, and other statements provided in this document are based on Novacel tapes tests or experience. It will be up to the user matching the product with the working process or surface. Novacel tapes will not be, at any rate, held responsible for not proper use. Warranty is limited to replacement of products that Novacel tapes proves to be defective and keeps out any other damages.
