

## BN 6383

## REPULPABLE TAPE

Single sided repulpable tape with extensible siliconized paper backing with high thickness. Very good conformability and very high tensile strength and edge tear resistance. High cohesion adhesive.

### MAIN APPLICATIONS AND ADVICES FOR THE CORRECT TAPE USE

- Temporary butt splices on high and medium paper at rereelers
- Core starting and reel closure
- Paper feeding at coaters

### WARRANTY

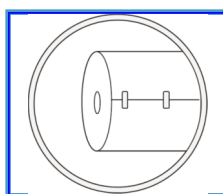

The tape can be stored for maximum 10 months from the date of production in dry conditions and in its original packaging. The material should be protected from extreme temperatures and direct sunlight. Once removed from its original packaging, the tape should be protected from dust and other impurities. Keep the rolls in horizontal position.

The technical information and data, recommendations, and other statements provided in this document are based on Novacel tapes tests or experience. It will be up to the user matching the product with the working process or surface. Novacel tapes will not be, at any rate, held responsible for not proper use. Warranty is limited to replacement of products that Novacel tapes proves to be defective and keeps out any other damages.
